Logan's New Hub

Building a bright future
for the Logan community
Launching in 2026

SSI For equality
of life.

Snapshot: Logan's Economic Hub

- A new, first of its kind 'Economic Hub' to be built in the heart of Logan Central, Queensland.
- \$15 million, 2600sqm community infrastructure, over four levels.
- All-in-one facility for job seekers and employers to access better opportunities, and tap into a skilled workforce, increasing overall economic participation.
- Construction completed by mid-2026.

Join us in helping to build Logan city into a vibrant and dynamic hub where individuals from diverse communities can connect, thrive and prosper.

Uplifting Logan City's economic potential

SSI, in partnership with the Queensland Government, has co-invested in a flagship community infrastructure project aimed at uplifting Logan City by giving locals, job seekers and employers access to better economic opportunities and outcomes.

The Hub aims to revolutionise the landscape of community infrastructure by creating a central place that transcends barriers and transforms lives, leading to positive economic contributions and change in the Logan community.

Community at the heart

Logan's first purpose-built Economic Hub will offer locals a range of employment and education programs. It will also provide access to community services and give participants support through wrap-around referral pathways. Designed with the most up-to-date features and facilities, this inspiring space will be a central hub for the diverse communities of Logan, including the many individuals and families from Culturally and Linguistically Diverse (CALD) backgrounds, First Nations backgrounds, those seeking support, and the long-term unemployed.

Logan's Economic Hub will include:

- Employment and training programs
- Training and interview rooms
- Co-working spaces
- Bookable community meeting rooms
- Break-out spaces
- Study centre
- Business incubator space or social enterprise shopfront
- Community based function centre, and
- Café and retail opportunities
